AGATE-WARE. SALE OF "SECONDS."

WARE need only be told that we are going to begin another great sale on Monday morning. The goods to be sold this week are what are known in the trade as Manufacturers' "Seconds." In most cases the imperfections are so slight as to be scarcely noticeable. They certainly don't affect the value of the articles for use; hardly for looks.

The manufacturers are, of course, very much averse to putting those goods on the market. The natural effect of selling goods SO NEARLY PERFECT at cut

prices is to lessen the value of the perfect goeds. We have succeeded, however, in securing a very large lot and will place them on sale to-morrow at these
